

## BALL VALVE WITH LINING TYPE CPL DN15 – 150 PN10/16

### Features

- Two-piece ball valve made of GGG 40.3
- Lining made of PFA, FEP, PP, ETFE or PVDF with minimal thickness 3 mm.
- cylinder made of stainless steel 1.4435, titanium, monel, hastelloy or stainless steel with coating made of PFA, FEP, PP, ETFE or PVDF
- flange acc to ISO 5211

### Advantages

- full bore without death space
- gas tightness at full pressure and temperature
- high tightness by the stem

### Operating

- hand lever
- gearbox
- electro actuator
- pneumatic actuator

### Parameters

- Temperatures from -40°C to 200°C, see the chart below

### PRESSURE

### VACUUM

## BALL VALVE WITH LINING TYP CPL DN15 – 150 PN10/16

### Dimensions (mm)

| DN  | A      | B   | C      | D   | ISO | E  | F  | G  | H  | J  | K  | K | kg    |
